TECHNICAL SKILLS

Languages

- Dart
- Java
- JavaScript
- SQL

Mobile & Web Development

- Flutter
- HTML
- CSS
- React.js

Backend & Cloud

- Firebase Authentication
- Firestore
- Cloudinary

Database

- MySQL
- Firebase Firestore

Tools & Platforms

- Git
- GitHub
- Android Studio
- VS Code
- Netlify
- Postman

EDUCATION

B.Tech in Artificial Intelligence & Data Science

Yashoda Technical Campus,
DBATU University
Passing Year: 2027

TRAINING

- Full Stack & Flutter Development Training
- Java & Database Development Training
- Firebase Application Development Training
- Web Development Training

LANGUAGES

- English
- Marathi
- Hindi

SUMMARY

Motivated and detail-oriented B.Tech student with hands-on experience in Flutter, Firebase, Java, and web technologies. Skilled in building mobile and web applications with modern UI, authentication systems, cloud integration, and database management. Passionate about developing efficient solutions and continuously learning new technologies.

PROJECTS

TrackSphere – Student CA Management System

- Developed a Flutter-based application for managing Continuous Assessments (CA) for students and teachers.
- Implemented role-based login system for Student and Teacher.
- Used Firebase Authentication for secure login.
- Stored student details, subjects, CA tasks, deadlines, submissions, marks, and reports in Firestore.
- Integrated Cloudinary for uploading and managing CA PDFs.

Student Features:

- Select subject, upload CA files, and view deadlines.
- Receive messages for deadlines and submissions.
- View generated reports and marksheets from teachers.

Teacher Features:

- Add CA tasks, set deadlines, and submission dates.
- View uploaded files, evaluate, and assign marks.
- Generate reports and marksheets for students.
- Students receive deadline and submission updates/messages.
- Secure logout functionality for both roles.

LMS in Flutter

- Developed a Learning Management System application.
- Implemented role-based access for Admin, Student, and Teacher.
- Used Firebase Authentication and Firestore for data management.
- Added course management and student progress tracking features.
- Designed responsive UI for smooth user experience.

ACHIEVEMENTS

- Built multiple real-world Flutter applications.
- Implemented authentication and cloud integration using Firebase.
- Active participant in coding events and hackathons.
- Consistently improving problem-solving skills on platforms like LeetCode.

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Time Management
- Effective Communication
- Adaptability & Quick Learning
- Self-Motivated
