Internship Offer Letter

Student Name : RIYA PRADEEP KUMBHAR
Stream : B.Tech
Branch : B.Tech(Artificial Intelligence (AI) and Data Science)
Institute Name : Yashoda Technical Campus, Satara
Internship Domain : Zscaler Networking
Internship Duration : April 2026 - June 2026
AICTE Student ID : STU68247607344c31747219975

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	Introduction to Networking for Cyber Professionals (EDU-101)	Provides foundational knowledge of networking concepts, protocols, and components essential for cybersecurity professionals.
Week 2	Learning Objectives	This course teaches networking fundamentals for cyber professionals, including network types, components, protocols, data communication, OSI model, IP addressing, subnetting, and tunneling.
Week 3	Networking Overview	Learn network fundamentals, including introduction to networks, network architecture, types of networks, key components, and network cabling essentials.
Week 4	Network Protocols & Communications	Understand network protocols, fundamentals of data communication, and TCP role in reliable data transfer.
Week 5	OSI Model & Seven Layers	Learn the OSI model and its seven layers for structured network communication.
Week 6	IP Addressing & Subnetting Overview	Understand IP addressing and subnetting concepts to efficiently organize networks.
Week 7	Tunneling & Acronyms Overview	Learn tunneling concepts and common networking acronyms.
Week 8	Introduction to Networking for Cyber Professionals (EDU-101) Exam	Test knowledge of networks, protocols, OSI model, IP addressing, subnetting, and tunneling.
Final Credential Validation / Internship Grade Point Assessment		

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.
